## ***Part D: Budget***

Please provide a detailed budget for your project using the template provided (see separate excel MGMGP budget forms). Please use the Single Year project or Multiple Year Project forms accordingly. All budgets **must** meet the following criteria:

- Present your budget in Canadian Dollars.

- Please show your overall budget for the project, not just the portion supported by the MGMGP.
- Clearly identify which aspects of the project will be funded by the MGMGP (the Development Fund will be used for.)
- MGMGP funds can only be used to support the **overseas portion of the project**.
- **The Total Expenses line and the Total Revenues line must balance.**
- Matching funds must be cash contributions, in-kind contributions are not eligible.
- For applications for multi-year projects a three-year budget projection must be provided.

Narrative budget questions:

1. Please specify which aspects or components of the project the Development Fund will be used for.
2. Please identify any non-cash contributions that will be made by the local communities.

The **Government of Canada** now requires charitable organizations to provide more detail about their political activities. To fulfill our own obligations under this requirement, we require our MGMGP applicants to share what amount of the project funding is related to political activities.

A registered charity may pursue political activities only if the activities are non-partisan, related to its charitable purposes, and limited in extent. A **political activity** is defined as any activity that explicitly communicates to the public that a law, policy or decision of any level of government inside or outside Canada should be retained, opposed, or changed.

If you have questions about this requirement, please contact MCIC staff or ask the person in your organization who completes the charitable tax returns (Registered Charity Information Return T3010).

3. Are any of the funds requested from the MGMGP for this project intended for political activities, as defined above?
4. If yes, then please enter the amount: \$ \_\_\_\_\_

### ***Part E: Public Engagement***

Describe how you will promote public engagement within your constituency and the broader Manitoba community during and/or after the project. It is expected that your Public Engagement strategy will be more than inclusion of the project in a media release or newsletter. Examples of public engagement activities include learning sessions and presentations, sharing formally and informally with peers, engaging the media, etc. Please visit our [website](#) for details about public engagement activities for projects and also look at the Appendix 2 of the Guide for information on public engagement for MGMGP supported projects.

## ***Part F: Applying MCIC's Principles***

MCIC's requirements for meeting its principles in respect to Principles 3, 5, 6, 7 and 8 are addressed in other sections of the application form. Please address the remaining MCIC principles through these questions.

### **Principle 1: Respect and Promote Human Rights**

- a. Please highlight how this project will implement strategies, activities and practices that promote individual and collective human rights (please see MCIC principle 1 for more description of how we define these rights).
- b. How will people with disabilities be involved in identifying, planning, implementing, and evaluating this project? How will the program ensure equitable access to services for people with disabilities?

### **Principle 2: Embody gender equality and equity while promoting women and girls' rights**

- c. How will both women and men be involved in identifying, planning, implementing, and evaluating this project?
- d. How will the program ensure equitable access to services for both women and men? If the program will not, please explain the reason.

### **Principle 4: Promote Environmental Sustainability**

- a. How will the planned activities promote positive change(s) to the natural and or built environment? Have these changes been discussed with and approved by the community concerned?
- b. Outline any negative effects to the environment that may occur as a result of this project. How will these effects be mitigated?
- c. To assess their contribution to the protection of local environments, some projects may be required to undertake an environmental impact assessment (EIA) by a funder other than MCIC. If an EIA has been undertaken for your project, please include the results with your application.

## ***Part G: Sustainable Development Goals***

Please rank the following Sustainable Development Goals (SDGs) your project is going to address. In the following table, please rank 1 in the third column for the main or primary goal that your project will address and rank up to three more Goals your project is likely to address with 2, 3, and 4. You do not need to check off all the goals, only the top 4 goals that your project is going to significantly contribute to. Here is a link to the [SDGs targets and indicators](#).

<b>SDG #</b>	<b>Goal Description</b>	<b>Rank</b>
SDG 1	End poverty in all its forms everywhere	
SDG 2	End hunger, achieve food security and improved nutrition and promote sustainable agriculture	
SDG 3	Ensure healthy lives and promote well-being for all at all ages	

SDG 4	Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all	
SDG 5	Achieve gender equality and empower all women and girls	
SDG 6	Ensure availability and sustainable management of water and sanitation for all	
SDG 7	Ensure access to affordable, reliable, sustainable and modern energy for all	
SDG 8	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all	
SDG 9	Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation	
SDG 10	Reduce inequality within and among countries	
SDG 11	Make cities and human settlements inclusive, safe, resilient and sustainable	
SDG 12	Ensure sustainable consumption and production patterns	
SDG 13	Take urgent action to combat climate change and its impacts	
SDG 14	Conserve and sustainably use the oceans, seas and marine resources for sustainable development	
SDG 15	Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss	
SDG 16	Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels	
SDG 17	Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development	

Once you select the top four SDGs most relevant to your project, please do following for the top 1 ranked Goal:

1. Select the most relevant target (or targets) from the [list of SDG Targets and Indicators](#). Note that mostly these targets and corresponding indicators are at the macro level, which appear to match for larger country level government projects. We need to downscale and make an appropriately sized project targets (and indicators) that contribute to achieve the corresponding SDG.
2. Once you choose and adapt the target, look at the indicators that you have already developed in Part C Section I of this proposal, and select the most appropriate indicator for the corresponding target that you intend to meet in the project.
3. Please keep in mind that you do not have to develop additional targets and indicators to show your contribution to SDGs, but rather you need to find your project targets and indicators that are relevant for SDG reporting. Apart from the targets and indicators that are relevant to contribute towards achieving the SDGs, you may still have project targets and indicators that are not in line with the SDG ones.

The following table will provide you a guide:

<b>Rank 1 Goal</b>			
<i>The relevant SDG target(s)</i>	<i>Project target(s)</i>	<i>The relevant SDG indicator(s)</i>	<i>Project indicator(s)</i>

1.	1. 2.	1.	1. 2.
