Part D: Sustainable Development Goals

Please rank the following Sustainable Development Goals (SDGs) your project is going to address. In the following table, please rank 1 in the third column for the main or primary goal that your project will address and rank up to three more Goals your project is likely to address with 2, 3, and 4. You do not need to check off all the goals, only the top 4 goals that your project is going to significantly contribute to. Here is a link to the [SDGs targets and indicators](#).

SDG #	Goal Description	Rank
SDG 1	End poverty in all its forms everywhere	
SDG 2	End hunger, achieve food security and improved nutrition and promote sustainable agriculture	
SDG 3	Ensure healthy lives and promote well-being for all at all ages	
SDG 4	Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all	
SDG 5	Achieve gender equality and empower all women and girls	
SDG 6	Ensure availability and sustainable management of water and sanitation for all	
SDG 7	Ensure access to affordable, reliable, sustainable and modern energy for all	
SDG 8	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all	
SDG 9	Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation	
SDG 10	Reduce inequality within and among countries	
SDG 11	Make cities and human settlements inclusive, safe, resilient and sustainable	
SDG 12	Ensure sustainable consumption and production patterns

SDG 16	Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels	
SDG 17	Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development	

Once you select the top four SDGs most relevant to your project, please do following for the top 1 ranked Goal:

1. Select the most relevant target (or targets) from the [list of SDG Targets and Indicators](#). Note that mostly these targets and corresponding indicators are at the macro level, which appear to match for larger country level government projects. We need to downscale and make an appropriately sized project targets (and indicators) that contribute to achieve the corresponding SDG.

2. Once you choose and adapt the target, look at the indicators that you have already developed in Part C Section I of this proposal, and select the most appropriate indicator for the corresponding target that you intend to meet in the project.
3. Please keep in mind that you do not have to develop additional targets and indicators to show your contribution to SDGs, but rather you need to find your project targets and indicators that are relevant for SDG reporting. Apart from the targets and indicators that are relevant to contribute towards achieving the SDGs, you may still have project targets and indicators that are not in line with the SDG ones.

The following table will provide you a guide:

Rank 1 Goal			
<i>The relevant SDG target(s)</i>	<i>Project target(s)</i>	<i>The relevant SDG indicator(s)</i>	<i>Project indicator(s)</i>
1.	1. 2.	1.	1. 2.
